PROFILE

A passionate and detail oriented Web and Software Developer with experience in building modern, user-friendly applications. Skilled in developing full-stack solutions using technologies such as HTML, CSS, JavaScript, and backend frameworks. Proven ability to deliver real-world projects like ZamFarm and KidLearn, focusing on performance, scalability, and user experience. Eager to contribute to innovative teams and continuously learn new technologies.

WORK EXPERIENCE

Web & Software Developer

- Developed custom web and mobile applications including ZamFarm and KidLearn, solving real-world challenges through technology.
- Designed and implemented responsive user interfaces using modern web technologies such as HTML, CSS, and JavaScript.
- Built and managed backend systems, including database integration and user authentication.

Software Developer (Project: ZamFarm)

- Academic / Personal Project | 2025
- Developed a digital platform to support agricultural activities and improve accessibility for users.
- Implemented core features including user registration, data management, and system navigation.
- Focused on creating a scalable and user-friendly system for real-world use.

Mobile App Developer (Project: KidLearn)

Academic / Personal Project | 2026

- Designed and developed an educational mobile application aimed at enhancing learning experiences for children.
- Integrated interactive UI elements and user-friendly navigation.
- Ensured smooth performance and responsiveness across devices.
